

# Release Notes

MedCen 7.1 Build 875

## ACC Price Changes

There is a 3.67% price increase for the Rural Primary Healthcare and EPN Contracts, effective 1 April 2009. This update includes these price changes – please make sure you have submitted all ACC claims prior to 1 April before generating new claims.

## From the 'Wish List'

**Every user can have a say about how they want MedCen to work for them. For each update, we try to include as many suggestions or requests that you have made. This update we included:**

-  Ethnicity codes have had their order changed slightly and now defaults to the top of the list (instead of the bottom)

## No More Bugs!

**Bugs can show up in software in many forms. Some will be minor, resulting in some unexpected behaviour. More serious bugs will cause error messages to appear or even cause the system to 'crash'. Let us know if you find any bugs and help us eliminate them! You can contact us by calling 0800 MED CEN (0800 633 236) or by emailing us at [support@medcen.co.nz](mailto:support@medcen.co.nz)**

## **Resolved Issues**

-  Flu vaccine claim could not be completed for those opted on NIR when administering the flu vaccine for eligible conditions
-  Schedules – an error occurred resulting in all schedules being regenerated
-  Daylog – printing consult slips for a patient that was on the daylog more than once would result in additional slips being printed for that patient throughout the day.
-  Careplus – errors would appear during an enrolment or review
-  CVD Risk tool – the diabetes and smoking options were occasionally selected incorrectly (would show as a green square instead of a 'tick' in the box)
-  Monthly Accounts – when printing Monthly Statements ordered by surname, not all statements were printed
-  On slower machines some keystrokes were missed while typing
